

KEITH MCAVOY

QA ENGINEER / TECHNICAL QA

📍 LOS ANGELES, CA 📞 949-742-2555 ✉ mcavoykeith@gmail.com
in [LinkedIn](#) | 🌐 Portfolio Landing Page

SUMMARY

QA Engineer / Technical QA professional with 7 years of game QA experience across Blizzard Entertainment and Intrepid Studios. Experienced in live-service validation, data quality, economy/systems testing, bug triage, test planning, Unreal Engine workflows, player-impact risk communication, and cross-functional QA coordination. Portfolio work adds supporting evidence of Python, pytest, structured reporting, documentation, and human-reviewed AI-assisted workflow practice.

CORE STRENGTHS

- Game QA
- Technical QA
- Test Planning
- Bug Triage
- Release Readiness
- Build Health
- External / Vendor QA Coordination
- Jira
- Confluence
- Unreal Engine 5 Editor
- SQL
- Data Quality
- Backend / API Testing
- Grey Box Testing
- Black Box Testing
- White Box Testing
- Risk Assessment
- Bug Repro Standards
- Player Feedback Analysis
- Cross-Discipline Collaboration

EXPERIENCE

QA Engineer II - Ashes of Creation, Economy / Narrative

Intrepid Studios | Remote | 2024-2026

- Supported QA across economy, crafting, progression, rewards, events, data validation, and MMO systems.
- Built test plans, test suites, and Confluence documentation for economy/data validation and playtest workflows.
- Analyzed player feedback and bug reports to surface trends, critical issues, and player-impact risks.
- Supported bug escalation workflows and surfaced priority issues in Jira for readiness discussions.
- Tested in Unreal Engine 5 Editor to support gameplay, systems, and validation workflows.

Test Analyst, Data - Diablo Immortal

Blizzard Entertainment | Irvine, CA | 2021-2024

- Validated data quality across live-service workflows with accuracy, consistency, reliability, and player-facing impact in mind.
- Used SQL to extract, analyze, and investigate data issues.
- Partnered with data engineering, product, and BI teams to resolve quality issues and root-cause discrepancies.
- Supported data pipeline and ETL testing with GCP tools including BigQuery and Dataflow.

Test Analyst, Contract

Blizzard Entertainment | Irvine, CA | 2019-2021

- Supported QA coverage across multiple Blizzard titles through Team Burst / Strike Team Foundation work.
- Helped develop early data-focused QA practices and transitioned into telemetry test planning and validation.
- Built core habits around clear repro steps, disciplined bug writing, cross-team communication, and release-pressure support.

SELECTED GAME WORK

Warcraft III: Reforged | StarCraft: Cartooned - StarCraft: Remastered graphics overhaul | Hearthstone expansions | Diablo II Switch port | Diablo II: Resurrected | Diablo Immortal | Overwatch 2 | World of Warcraft: Shadowlands | World of Warcraft: Dragonflight | Diablo IV | Warcraft Rumble | World of Warcraft: The War Within | Diablo IV: Vessel of Hatred | Ashes of Creation

CERTIFICATION

ISTQB Foundation

SUPPORTING PORTFOLIO / QA TOOLING

QA Bug Report Tool: first working Python CLI with structured Markdown reports, validation checks, sample data, and pytest coverage. | Community Pulse Report Tool: first working prototype for fictional feedback summaries and follow-up notes. | Nyx: WIP Unreal prototype documented through QA-style validation planning, PIE smoke-test notes, and save/load reliability notes.
