

SENIOR QA / TECHNICAL QA REFERRAL BRIEF

KEITH MCAVOY

QA ENGINEER / TECHNICAL QA

📍 Los Angeles, CA | 📞 949-742-2555 | ✉️ mcavoykeith@gmail.com

🌐 LinkedIn | 🌐 Portfolio Landing Page

SENIOR QA FIT SUMMARY

Keith McAvoy is a **QA Engineer / Technical QA professional** with 7 years of game QA experience across **Blizzard Entertainment** and **Intrepid Studios**. His background combines live-service validation, data quality, economy/systems testing, Unreal Editor workflows, test planning, bug triage, player-impact risk communication, and cross-functional QA support.

WHY KEITH FITS A SENIOR QA ROLE

Keith's strongest fit is QA work that needs both execution and judgment: understanding what changed, identifying risk, writing clear bugs, coordinating validation, and communicating what is ready, blocked, or still unknown.

PROFESSIONAL FEEDBACK THEMES

LinkedIn recommendation highlights point to a consistent pattern: clear communication, cross-functional collaboration, strong follow-through, and reliable QA support under production pressure.

The feedback aligns with how Keith approaches QA work: reduce ambiguity, document risk clearly, help teams prioritize, and keep the player experience at the center of validation.

RELEVANT EXPERIENCE PROOF

Blizzard Entertainment

Test Analyst / Test Analyst, Data | 2019-2024

- Spent nearly 3 years focused on Diablo Immortal data quality.
- Validated data accuracy, investigated discrepancies, and supported telemetry / pipeline testing with SQL and GCP tools.
- Partnered with data engineering, product, and BI teams while building strong habits around reproducibility and player-impact communication.

Intrepid Studios

QA Engineer II - Ashes of Creation, Economy / Narrative | 2024-2026

- Supported QA for economy, crafting, progression, rewards, events, and MMO systems.
- Built test plans, supported playtests, analyzed player feedback, and helped surface critical risks.
- Worked in Jira, Confluence, Unreal Engine 5 Editor, and vendor/cross-discipline QA workflows.

TECHNICAL QA / PORTFOLIO SIGNAL

Keith is also building a public QA portfolio focused on practical Technical QA habits: structured bug reporting, community-feedback summarization, Unreal prototype documentation, pytest coverage, human review, and GitHub-based follow-through.
